Request to be included in the 2011 Lottery (for 2011-12 school year)

Important

Charter schools are tuition-free public schools that are open to all students. Enrollment in charter schools is generally done by a lottery, although some schools accept students on a first-come, first-served basis. Please check with each school to understand their admission process.

By completing this form, you are requesting to have your child entered into the lottery for the 2010-11 school year for (enter school name)_____. This is not a guarantee of enrollment. If the number of students entering the lottery exceeds the number of students the school can serve, then the school will randomly select students that will be admitted to the school. Families are encouraged to consider multiple options for their students.

Charter schools are not permitted to discriminate on the basis of race, color, ethnicity, religion, gender, or academic background. Students with special needs also have the right to enroll in charter schools and schools will work with families to determine how to best meet the needs of students.

To be included in the 2011 lottery for this school, **please complete this form and return it to the school** (see address on list of participating schools that accept this form).

Forms must be received by January 31, 2011 to be included in the lottery. You must complete a separate form for each student that you wish to have entered into the lottery.

Families will be notified no later than February 14, 2011 whether or not their students have been admitted to the school. If your child is admitted to this school, you will receive an enrollment packet that must be completed and returned to the school by March 11, 2011.
